

# Cross-Image Component Linking Report

Image 1: ocr-rx3.png · Image 2: ocr-rx4.png

|                            | Image 1 | Image 2 |
|----------------------------|---------|---------|
| Components detected        | 2       | 4       |
| Equivalence classes        | 2       | 4       |
| Within-image relations     | 0       | 0       |
| Identity (very high) links | 0       |         |
| SKU (high) links           | 0       |         |
| Therapeutic (medium) links | 0       |         |
| Unmatched                  | 2       | 4       |

## Confidence tiers

|             |                                                                                                      |                  |
|-------------|------------------------------------------------------------------------------------------------------|------------------|
| Identity    | Same physical lot. Shared NDC + Lot (+ optional Exp), or shared Lot + Exp/Mfg with no conflicts.     | <i>very high</i> |
| SKU         | Same product SKU. Shared NDC; lots may differ or be unobserved.                                      | <i>high</i>      |
| Therapeutic | Same drug + strength but different manufacturer / NDC. Functionally substitutable, not the same SKU. | <i>medium</i>    |
