Confidence tiers

Identity	Same physical lot. Shared NDC + Lot (+ optional Exp), or shared Lot + Exp/Mfg with no conflicts.	<i>very high</i>
SKU	Same product SKU. Shared NDC; lots may differ or be unobserved.	<i>high</i>
Therapeutic	Same drug + strength but different manufacturer / NDC. Functionally substitutable, not the same SKU.	<i>medium</i>

Within-image relations

Components in the same image that aren't the same physical lot but represent the same SKU or are therapeutically equivalent.
